

REPORT FROM 2nd PROJECT MEETING IN LJUBLJANA, SLOVENIA THURSDAY 21st OCTOBER 2021

Thursday 21st October

On Thursday we woke up at 6 a.m., then we got ready for the school and had breakfast – **homemade bread with jam and hot milk**. At 7 a.m. we went to school by bus. Other days we went to school by a car with parents. Even though it was autumn, it wasn't cold outside at all. It was pleasantly warm.

After coming to school at 8 o'clock, we were **painting T-shirts** with an art teacher. These T-shirts were printed with the word Erasmus and we could keep them in memory.

After this, we were **finishing our presentations of the countries in international groups**. There were **five teams of students** and each of them had a topic, for example **traditional**

food, monuments, the weather, the differences ... When the teams finished this work, we **presented them in English and Spanish**. This was a little bit of stress but it was cool.

Now was the time for lunch. On this day we had **a vegetable soup and rice with sauce**. For a drink we had a water as usual.

After the lunch we spend lot of time in the gym where sports games were prepared for us. Our team was tasked with meeting various challenges. For example, we **had to make a pyramid out of us**. We also jumped in the gym with jump rope. There was a lot of fun.

Later we went home to change the clothes and prepare for the celebration dinner at school. Before dinner we were preparing decorations for the tables, which we then ate. There were a festive

tablecloths, candles and origami paper swans. **Then we watched videos of schools made by students from other schools in their countries.** Students took us virtually through their schools.

The dinner finally begun. Everyone could take whatever they want. There was a lot of delicious food - **vegetable salads, several types of meat, baked potatoes and other cooked food.**

After dinner we danced dances we learnt during the week. And after the dances came **delicious deserts – several cakes, fruit smoothies and chocolate balls.** Then we could go out. We danced outside again, we talked to friends and learned a new dance.

For me this day was the best day of this week because there were a lot of fun and a lot of laughter.

At the end of the day we got our certificates. You can see our team below with the **school headmistress Melita Kordeš Demšar and Slovenian coordinator Pavlinka Korošec Kocmur.**
