

REPORT FROM 3rd PROJECT MEETING IN KAUNAS, LITHUANIA TUESDAY 5th APRIL 2022

The next day, on Tuesday morning we took a long journey to our partner school - we had a programme at school where we were welcomed by the headmistress and the children playing the

flutes. Then there was a tour of the school. The school was similar in size to ours but the classrooms were different - they were much smaller than in the Czech Republic. Just about 15 children could fit in one classroom.

After a tour around the school, **the Spanish team gave us a presentation on sustainable living** at the which we then followed up **by working in groups.**

We had lunch at school, after which we and the students from other countries **went on a trip to the Pažaislis Monastery.** It was at the outskirts of the city near a big dam lake. Originally we wanted to

see **a water power plant** there but we weren't allowed even to go near it because it was a strategic place and the war in Ukraine was close. **Outside it was freezing cold** even if it was already April, maybe because we were near the sea and two rivers.

We took a bus to the monastery which is the main means of transport used together with trolleybuses in Kaunas. As soon as we arrived, the guide was waiting for us

and we went to **the small museum which was built next to the monastery** first. The guide was speaking in English. In the museum we learned many things about the lives of the monks who lived in the

REPORT FROM 3rd PROJECT MEETING IN KAUNAS, LITHUANIA TUESDAY 5th APRIL 2022

monastery, what all it took to be a monk and what they had to give up. We visited **the main building; the church and we also saw the garden outside.**

After the tour of the monastery, on our way back **we visited the beach of one of the lakes** where the wind

was blowing hard so we hurried as fast as we could **to the warm restaurant of Evlada** where the dinner was waiting for us. **We has a typical Lithuanian meal.**

When we finished the whole day we were tired and full, so all teams got on the bus and we went back to the different hotels in the city centre where we were staying.
