

REPORT FROM 4th PROJECT MEETING IN ZABRZE, POLAND

SUNDAY 8th AND MONDAY 9th MAY 2022

Sunday 8th May 2022

It's Sunday, currently 3:00 p.m. and we are taking the last picture before getting on the microbus to Poland. It's not such a long way. The navigation says 2 hours and 20 minutes.

And where are we exactly going? Well close to the Katowice is a **small city of Zabrze**. Zabrze is a city where are **coal mines**. And that is why wherever you come as a visitor to the shops or cafes or restaurants, everyone says that Katowice or the old town of Krakow are lot nicer than Zabrze. But it was a surprise. The city has so many beautiful places. It maybe got this reputation mainly because of the coal mining in the past when the houses caught coal dust and look dark and dirty. Now it is a nice town!

Monday 9th May 2022

On Monday morning we got up and took the bus to school. **School started at 8.10** a.m. First we gathered in one of the classrooms where refreshments were prepared for us and then we moved to another decorated classroom where **the headmistress officially welcomed us and wished us good luck and fun while working on the project**. The project coordinators outlined the tasks that awaited us during the week and the programme we would be following.

We then split into national teams and **the Polish students showed us around the school**

**REPORT FROM 4th PROJECT MEETING IN ZABRZE,
POLAND
SUNDAY 8th AND MONDAY 9th MAY 2022**

in English and Spanish. We looked into several classrooms and participated in two lessons. We also saw the school from the outside, including the playgrounds.

At 10.30 a.m. **we split into 4 international groups** and each group started work on a different task:

- **Group A** had to create a blog and a travel agency website
- **Group B** had to promote the travel agency on social media (Facebook, Twitter, Isogram) and create a video advertisement for the travel agency)
- **Group C** had to create a paper promotional brochure of the travel agency
- **Group D** had to prepare an audio advertisement of the travel agency for radio or telephone

We were working on this assignment until 12 o'clock and then went to lunch in the school canteen. **We had a typical Polish meal.**

From 1.00 p.m. to 2.45 p.m. we **took part in the lessons of some subjects such as mathematics, English, computer science and German.** Afterwards, our

families picked us up and we went home and everyone had a programme with their family.
