

REPORT FROM 4th PROJECT MEETING IN ZABRZE, POLAND FRIDAY 13th AND SATURDAY 14th MAY 2022

Like every morning, my alarm went off at 7:00, I checked my mobile phone for a while, and then went to the bathroom to shower, brush my teeth, and rinse my face. I got dressed and went to breakfast. We had delicious cereal and milk for breakfast. In a little

while we got in the car and drove to the store to get a snack and from the store we drove straight to the nearby school.

At school, we were working in international teams to finish advertisements to promote the travel agency, which we started on Thursday. We had about 2 hours to finish it. Since our team had to record the commercial as audio, we had to go somewhere quiet. With our whole group, we moved to the school garden where we recorded the pre-prepared texts of the ad on our mobile phones so that we all could talk at least for a while. We then went back inside where we recorded the audio from the mobile onto a flash drive and then added it to our presentation. We reviewed the presentation, edited it into its final form and divided up the roles of who would say what. When all the teams were finished, it was time for the final presentations. We went into a nicely decorated room where all the teams presented their final work. We were also given certificates and gifts.

After the presentation of all the projects we went together to the school canteen for

lunch, which was good and tasty, **pancakes with jam and cottage cheese**. After lunch, while we were waiting for our hosts, we signed each other's T-shirts, which we received as a gift. We chatted with the Spanish, took pictures together and learned

some Spanish. Then Borys came to collect me and we went home. Right after that, Borys went to tennis and I rested at home. After Borys came home, we had schnitzel and potatoes and cucumber salad for dinner. After dinner we rested for about an hour and after resting **we went to play basketball**, which we enjoyed

very much. After this event we went to the store to buy something and then straight home. Since I was very tired I went to bed right away.

Saturday 14th May 2022 departure from Poland

It was the end of the project meeting in Poland. It was a very nice trip. We saw so many places in Poland, had a lot of fun, met so many new friends. But the time came when we had to go home. We all met at 8.50 on Saturday at the Ibis Hotel, where the teachers were staying. Microbus was waiting for us. We said our last goodbye to families and our hosts, gave our suitcases to the driver and get on the microbus. When we were leaving, everyone was waving for the last time.

Part of our journey was to learn about other cultures, so I observed interesting differences between the Polish and Czech life:

Differences between the Polish and Czech life

1. First of all, **the school was private**, they pay school fee. So that means everyone was rich. There wasn't a family, that does not have two cars or their house or garden.
2. I was surprised **how Polish language is similar to the Czech language**. We understood nearly everything that they were saying.
3. Another surprise was that Polish water is not of very good quality so they must buy bottled water.
4. I thought, they would have more public transport. But I was wrong. Of course they have some buses and I also saw a tram but much less than in Brno.
5. A big difference is that **Polish students don't have to change their shoes at school** and also the first lesson starts not at 8 a.m. but at 8:10.
