This port is the most romantic place of Gran Canarias. This place was built between 1983 and 1988. It had been designed by Raphael Nevill. People nicknamed it the Canary Venice. The port Puerto Mogán is a popular place for trips. Houses with coloured windows between water channels are mostly white. A lot of flowers grow in front of the doors. In the port there are many luxury ships and steamers. Long walks in Puerto Mogán are so beautiful.
