

REPORT FROM 6th PROJECT MEETING IN QUIMPER, FRANCE TUESDAY 21st JUNE 2022

I woke up around 6:30 a.m. on Tuesday. I got dressed, made my bed, etc. Around 7 a.m., my host family called me for breakfast. They asked how I was, how I slept, and what we were going to do today. I **had cereal**

with milk and orange juice for breakfast. At 7:30 Estelle and I took the number 8 bus to meet the other students and teachers at the school.

Today we went to learn about **other parts of Brittany.** At about 8 a.m. we left for a tour of the port of **Lorient - La Base** and also a **tour of the submarines.** The guide spoke to us in English about the history of the submarines, how they work and what their main task was during the World War II. I was

curious to see **the interior of the submarine.** I learned that workers were there for over a month and each position had 2 deputies to sleep, go to the bathroom, etc... We went through one submarine and **I must say it was very narrow and low.** I couldn't live in it for 40 days.

After the tour of the submarines we went to see **the sport yachts in the harbour** and the dad of one of the French pupils told us about them. **They were yachts that race across the Atlantic Ocean to the Caribbean or the USA.** We also saw **catamarans** and although they were quite large, there was only one person racing each time.

Then we had 1 and a half for lunch at the marina. With the other students from the Czech Republic we sat on the pier and put our feet in the water and had lunch. For lunch I had **a baguette with ham, a cereal bar, chips and cookies.** We had fun, we laid around and it was

great. At the last minute, Anežka took the speaker out of her backpack and we put on some music.

After lunch we went to the bus and drove to **the town of Concarneau**. It was a beautiful little town with walls, and since it wasn't very big, we

had free time for about 1,5-hour to visit it. We went to a food and gift shop where we bought various things. We stayed in the food shop the longest and bought local specialties and sweets. We returned to the car park. Then we took the bus for about 40 minutes. The journey was fine, but we all fell asleep because we were all tired.

We arrived at the school around 4:30pm. When we returned **we went to the town**

hall to officially meet the mayor of the town.

Then we took the number 8 bus home with Estelle. When we got home we went to the soccer field, which was 3 minutes away from the house. We got back home in about an hour

and were getting ready to go into town because **it was a national festival day in Brittany.**

In town I tried a typical French meal which was **a crepe with egg, ham and cheese and for dessert I had a crepe with salted caramel and caramel ice cream.** Afterwards we went to listen to typical **Breton music**. It was interesting, but nothing for me. There was also pop and rap, and I enjoyed that. We also discovered a party bus there and it was an interesting experience. Halfway through it started raining heavily and we had to go home.

We were soaked and wet, but we made it home. We arrived at 11 p.m. and I went to bed around 12 p.m.
