The Municipal library

On Thursday we had a lot of learning activities in the city centre, in the morning we woke up at 7 am when we all got out of bed and had breakfast. We got ready for another amazing day and adventure, after breakfast we took the taxi and it was around 8:45 am, then we arrived at the **Municipal library** around 9 a.m. where we all went to the elevator and up to the 4th floor. There we all sat and we had a morning programme that consisted of several activities:

1. **Vassilis Vasilikos:** famous Greek author born in Kavala who wrote a political novel Z.

2. **Greek, Czech and Spanish traditions** where everyone from their country went to the front and talked about unique traditions of their home town. It was really nervous but in the end it all got better, after some time and after everyone talked about their traditions.

3. **Lesson of Greek language** where we decided to

play a game about guessing the right Greek word and translate it.

The Archeological museum

After all that we packed our things and divided into 2 groups, the **1st group that went to the kitchen club to cook and make aromatic olive oil** and the **2nd group that went to the Archeological museum.**

I was in the 1st group so we went to cook, we cooked dishes from Spain, Czech Republic and Greece, and later on we made aromatic olive oil, some time passed and the 2nd group arrived, when the 2nd group arrived the 1st group went to the Archeological museum, there we got separated into pairs and we **had a paper full of questions** to walk around the museum and answer them. It was really funny but also really tiring at the same time, after everyone had their questions answered we had to write a small little story about

a person or certain object in the museum, I picked out the Greek columns.

Lunch at the Kitchen club

After all that we went back to the Kitchen club and had lunch there, the food was amazing and I really enjoyed it. I could eat the entire table alone, but of course I need to share food. The food that we ate was just so delicious, and my mouth was watering. **The starter was Spanish food, the main dish**

was Greek food and the desert was Czech. My most favourite was probably the desert because I love sweets, and I ate a lot of them.

Exploration of the Old Town

When we ate all, we went for a walk **to explore the Old Town of Kavala** where it was just up and up the hill, our legs were super tired because we ate before it and went right after it. From the top of the hill, there was an amazing view: **the city of Kavala was so beautiful** and it was still day time,

later we visited **the Holy Church of the Assumption of Virgen Mary** which was so beautiful from the outside and the inside, that I lit up a candle to bless my close ones, for example my family, there. When we left it, it was getting dark.

After the visit to the Old Town everyone took a photo of the amazing view of Kavala at night, it was really beautiful but the trip was really tiring. After all we all enjoyed it, the programme ended at 5:30 p.m. after that **we waited for my host father to pick us up and go home** to relax for a bit. After that we all went outside again and had a lot of fun, we got home at around 10 p.m. and we went to sleep because it was a really tiring day.

We all really enjoyed our stay in Kavala, we hope that we can go for more amazing adventures like this, I really loved it and I look forward to new great adventures.
